GO-TO-MARKET

Launching Sold Direct in Cape Town: the campaigns behind the deal ramp.

What we say, who hears it first, the campaigns in sequence, what the marketing rand buys, and the numbers that tell us to scale or stop.

ONE MESSAGE, IN ONE ORDER

The whole sale, run for you. At 0%.

1 · WHAT WE ARE

The whole sale, run for you

An agency-grade listing on Property24 and every step to registration handled: pricing, viewings, the offer, bond, FICA and transfer. Not a DIY ad.

2 · THE PROMISE

0% commission to the seller

The banks pay us, not the seller, on the qualifying path (90-day exclusive mandate, bond through our partner, panel conveyancer). The 1% Flex fee is always disclosed.

3 · THE REASSURANCE

Guided and compliant

A WhatsApp concierge and registered property practitioners from mandate to registration. Audited trust accounts, verified market numbers, privacy by design.

The line: “Your home on Property24, agency-grade — and the whole sale run for you at 0%.”

Never anti-agent. Full-service agents remain the right choice for most sellers; we serve the segment who choose to sell direct. Savings are framed as what the seller keeps, never as someone else's fee.

WHO HEARS IT FIRST

Prime Cape Town sellers, and the neighbours who are next.

Launch pockets

Atlantic Seaboard · City Bowl · Southern Suburbs · Constantia. Transacting prices of R6–7m are normal here, the bond is large, and the sale is referral- and reputation-driven: the lowest acquisition cost in the market.

The seller we serve

Owners who want to sell direct and do the work themselves, who today choose between a full-service mandate and running a R6m transaction alone after a flat-fee portal ad.

The second audience

Every live listing is seen by the street. The neighbour watching the board and the sold-direct story is the next mandate.

THE TAPER

We land at prime and broaden into the upper-market (above ~R4m) as the brand earns trust: the average transacting price moves from R6.5m in Year 1 to R4.0m in Year 5, growing the pool from ~14,000 prime transfers a year to ~35,000.

	Y1	Y3	Y5
Average transacting price	R6.5m	R5.0m	R4.0m
Registered deals	50	325	1,450
Share of the upper-market	—	—	~4.1%

FROM FIRST MESSAGE TO THE NEXT SALE

One WhatsApp thread carries the whole relationship.

HOOK

Quick Estimate

A free price range in minutes, on WhatsApp. The entry point for every seller.

CONVERT

Property Report and listing

Comparable sales, suggested asking price, then a guided listing with photos and a written description.

LOCK IN

90-day mandate

The 0% path needs an exclusive term, so stock builds and every enquiry stays on the platform. Live on Property24 within 48 hours.

DELIVER

The sale, run to registration

Buyer pre-qualification, offers, bond, FICA, clearance, lodgement and registration, tracked in the thread.

KEEP

The number stays useful

Post-sale services and the neighbourhood: movers, painters, security groups, schools. The next bond and the next sale start here.

The platform does the admin and first response; registered practitioners carry the judgement. Every stage is a message the seller can forward, which is how the funnel refills itself.

FIVE CAMPAIGNS, IN SEQUENCE

Earn the first twenty, prove the loop, then buy reach.

CAMPAIGN 1 · WEEKS 4–10

The Founding Twenty

Twenty founding listings across the four launch pockets, white-glove, live on Property24 within 48 hours of mandate. Each one is a case study: a DIY ad became an agency-grade listing and a run sale, at 0%.

Channel: founders' networks, suburb groups, boards

CAMPAIGN 2 · ALWAYS ON

What is my home worth?

The Quick Estimate as the ad. Targeted social to homeowners in the launch suburbs, QR codes on boards and flyers, suburb WhatsApp and community groups. A price range in minutes; a Property Report for the serious.

Channel: Meta geo + interest, community groups, print

CAMPAIGN 3 · FROM WEEK 10

Sold direct, the story

PR on a genuinely useful consumer question: a portal ad is not a sale, so what does a R6m private sale actually take? Then the first sold-direct stories, with consent, street by street.

Channel: property press, radio interviews, our own pages

CAMPAIGN 4 · ALWAYS ON

Neighbours next

Every live listing advertises to the street. A referral reward for the seller who brings the next mandate, and the after-sale community thread that keeps the number in the household's pocket.

Channel: boards, the thread itself, referral links

CAMPAIGN 5 · MONTH 5 ONWARD

Brand, above the line

Outdoor on the Atlantic Seaboard and Southern Suburbs commutes, Cape Town radio, digital video. Unlocked only once the founding cohort's conversion data confirms the model's marketing-to-deals assumption.

Channel: OOH, radio, video; bank sponsor co-funded

PARTNER CO-MARKETING

The bank headline sponsor

One bank as the featured brand on the platform (advertising, never steering), co-funding above-the-line reach from Year 1. Property24 and BetterBond carry the agency-grade and bond stories in their own channels.

Modelled sponsorship: R3m (Y1) to R8m (Y5)

THE FIRST FIVE MONTHS

Reach first, then earn the first twenty.

P1

Launch burst · weeks 1–4

Four weeks of paid reach on Property24, where every Cape Town seller already looks, paired with Ask Ash, the property media house with over 100,000 followers and columns in the national press. Every Cape Town homeowner sees the brand eight times before the Founding Twenty opens. The portal agreement, practitioner registration and partner letters are concluded alongside.

P2

Founding Twenty · weeks 4–10

Twenty founding listings in the four pockets. White-glove concierge; the 48-hour promise; every listing a case study in the making.

P3

Prove the loop · weeks 10–20

First registered sales. Measure listing-to-enquiry-to-offer-to-registration, leads per listing, sell-through, acquisition cost by channel, and why sellers chose us.

P4

Scale · month 5 onward

Above-the-line brand spend only after the conversion data holds. Broaden suburbs; take the wedge story national.

CHANNELS, RANKED BY FIT

1 · The portal itself (every listing is an ad to the exact audience) · 2 · Suburb communities and referral loops · 3 · PR · 4 · Targeted social in the launch suburbs · 5 · Above the line, gated behind the data.

WHY THIS ORDER

Prime sells on word of mouth and reputation. We earn trust before we buy reach, which is the structural answer to the marketing-led failure the category is known for.

WHAT THE MARKETING RAND BUYS

Reinvesting an ~88% gross margin into brand, with discipline.

	Y1	Y2	Y3	Y4	Y5
Marketing (R'm)	2.5	4.0	9.0	16.0	25.0
Registered deals	50	110	325	750	1,450
Marketing per registered deal	R50k	R36k	R28k	R21k	R17k
Revenue per registered deal	R56k	R71k	R63k	R58k	R52k
Marketing as % of revenue	41%	32%	34%	31%	29%

Base case; live on the P&L tab of the model. Marketing per deal falls below revenue per deal from Year 2, when origination moves in-house.

YEAR 1 ALLOCATION · R2.5M, INDICATIVE

Founding Twenty and suburb communities	R0.5m
Always-on Quick Estimate (targeted social, print, QR)	R0.6m
PR, content and sold-direct stories	R0.3m
Brand above the line, month 5 onward (gated)	R0.8m
Creative, tooling and measurement	R0.3m

The above-the-line tranche is released only against the Founding Twenty's conversion data; until then it sits in runway.

THE NUMBERS THAT TELL US TO SCALE OR STOP

Targets and the triggers we act on.

METRIC	TARGET	TRIGGER TO ACT
Founding listings	20 by week 10	Fewer than 10: revisit the offer and segment before spending further
Attribution	At least 40% of sellers cite the run-for-you service and the agency-grade portal listing	Under 20%: the wedge is weaker than modelled; re-test the message
Leads per listing	At least 5 a month (this also sets our Property24 tier)	Tier cost above R10k a month before 100 concurrent listings: renegotiate
Sell-through	At least 60% within 6 months	Below: pricing guidance and concierge intervention
Acquisition cost, organic phase	Under R3,000 per listing	Above: channels 1–3 are not working; no move to above the line

Measured weekly from the platform's own data: every enquiry, offer and registration is a tracked WhatsApp event.

HOW IT LOOKS AND SOUNDS

Warm, direct, assured, unpretentious. South African. Human first.

PILLAR 1

Empowered

The seller is the hero, one step ahead, in motion. Never patronising.

PILLAR 2

Effortlessly smart

The latest technology, trained on fifty years of South African property transactions, felt as ease, never as machinery.

PILLAR 3

Trusted

Visible step-by-step journey, attorneys' trust accounts, verified market numbers, privacy by design.

PILLAR 4

Personal, 24/7

The whole sale in the most human channel there is. Always on; a real person when it matters.

PILLAR 5

Free from fees

0% as a proud, ownable device: what sellers keep, the feeling of a weight lifted.

GUARDRAILS, NON-NEGOTIABLE

Never anti-agent, never mocking: estate agents play a valuable role and our own team includes registered practitioners. Savings framed as what the seller keeps. The concierge is the concierge. Technology does the admin; people help you sell.

WHAT COULD GO WRONG, AND WHAT WE DO ABOUT IT

Discipline on acquisition cost is the whole plan.

MARKETING-LED FAILURE

The Purplebricks guardrail

The comparable that was destroyed by acquisition cost and over-expansion. We land at prime where demand is referral-driven, earn trust before buying reach, and gate every above-the-line rand behind conversion data.

DISTRIBUTION

Property24 slow-walks the agreement

Sign Private Property first (both portals are bound by the same interoperability rights); our own listing pages and shareable WhatsApp links carry the interim. The relationship is framed as complementary: we are a paying wholesale customer.

COMPETITION

Copycats and portal private tiers

A copycat needs practitioner registration, origination economics to fund 0%, a portal agreement and consumer trust. We move first, own the prime brand, and keep the product depth they would have to rebuild.

“Earn the first twenty, prove the loop, then buy reach.”
